

Nr.70/04.04.2024

To Administration of the National Cinematography Center of Georgia

Letter of intent

If the production of the full-length feature film "The Argonauts" is financed, the management of our studio is ready to dub the film into English and distribute the film on the European international film market.

The studio will also participate in submitting the project to the 'Eurimages' film fund and other international film funds in Europe to seek additional funds for the production and distribution of the film.
